

FD30S & FD60S FIRE DOORS

HIGH QUALITY FIRE DOORSETS

AVAILABLE FOR SUPPLY & FIT OR SUPPLY ONLY

MANUFACTURED IN WEST SUSSEX

ABOUT US

Welcome to J Fire Safety

We are IFC Certified Manufacturers and BM TRADA Certified Installers of FD30S & 60S fire doors across the South Coast, providing independently assessed fire door solutions that meet recognised industry standards.

Our experienced team of estimators, fire door specialists, manufacturers, installers and administrators work seamlessly together to deliver a complete service. From your initial enquiry and specification through to manufacture, installation and final certification, every stage of the process is managed by our dedicated in-house team, ensuring exceptional quality, consistency and attention to detail throughout.

For clients who have their own approved installation contractor, we also offer a supply-only service, providing the same expertly manufactured, certified fire doors ready for installation.

Based in Rustington, every fire door is manufactured at our production facility in West Sussex by our highly skilled team of craftsmen and technicians. Combining traditional workmanship with the latest precision manufacturing technology, we produce certified fire doors to the highest standards of quality, performance and compliance.

Whether you require a single replacement doorset or hundreds of fire doors, we have the capability to deliver projects of every size with the same commitment to precision and customer service.

Trusted by clients across the commercial and residential sectors, we specialise in the manufacture and installation of certified fire doors, with particular expertise in flat entrance doors.

THIRD PARTY CERTIFIED

J Fire Safety are proud to hold accreditations for BM Trada Installation & Maintenance and IFC Fire Door Manufacturing.

BM TRADA is a UKAS-accredited third-party certification body. It provides independent testing, auditing, and certification for fire doors and fire-stopping services, ensuring they are manufactured, installed, and maintained to the highest safety standards.

IFC (International Fire Consultants) Fire Door Certification is a UKAS-accredited, third-party scheme. It verifies that our fire doors are manufactured to strict, safety-compliant standards. This ensures complete traceability for building control bodies and insurers across the UK.

THE SUSSEX COLLECTION

Inspired by the heritage, craftsmanship and landscapes of Sussex, The Sussex Collection showcases our range of bespoke FD30S and FD60S fire entrance doors. Proudly manufactured at our West Sussex facility, each doorset is expertly crafted to combine certified fire protection with exceptional quality, durability and design.

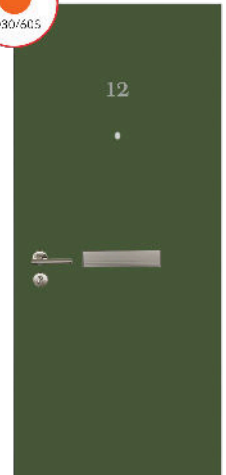

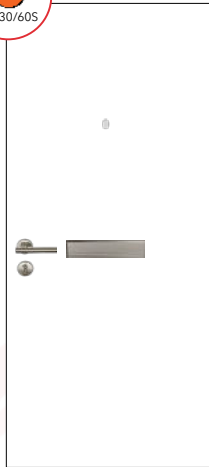

Available in a wide choice of styles, finishes and configurations, every door can be tailored to complement your project while meeting the highest standards of safety, performance and compliance.

Our doors offer a premium fire door solution without compromising on aesthetics.

OUR COMMERCIAL RANGE

Our commercial fire doorsets are designed to deliver certified fire protection, durability and a professional appearance for a wide range of commercial and public buildings.

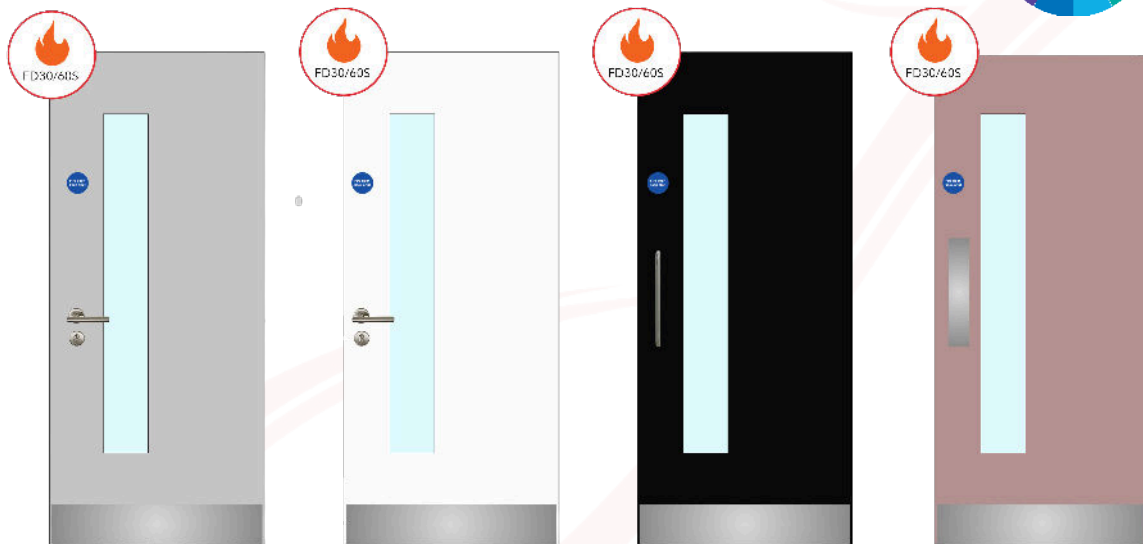

Manufactured in-house at our West Sussex facility, the range is available in both single and double door configurations, with options including smooth painted finishes, wood veneers and fire rated glazed panels.

Suitable for offices, schools, healthcare environments, leisure facilities and communal areas, our commercial doorsets combine robust construction with high-quality finishes and fully certified FD30S and FD60S fire protection.
